

Straight line down, then I'm done
that's how I make my number one.

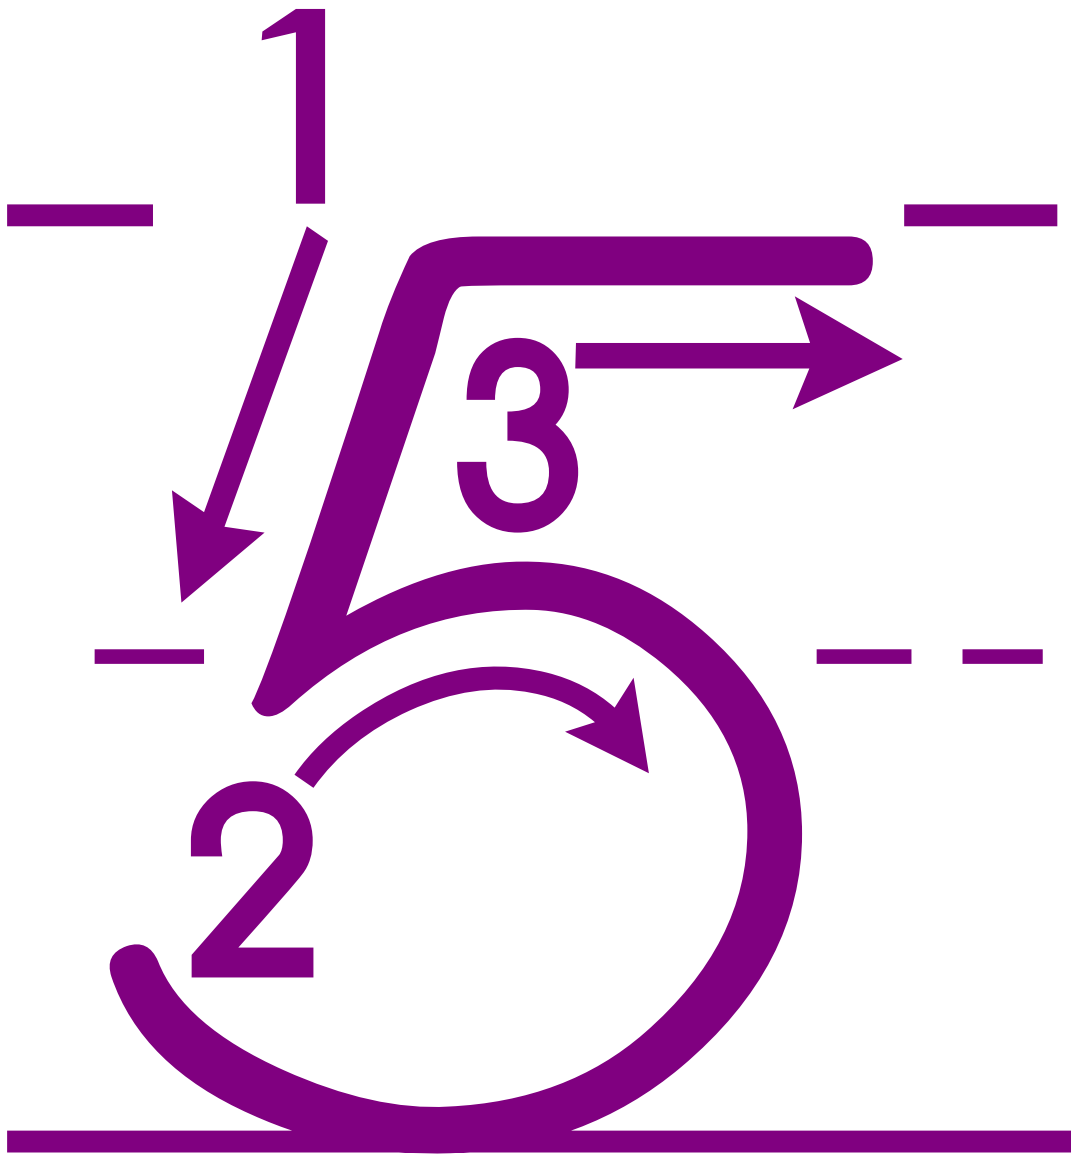

Around and back on the railroad track - Toot!
Too! That's how I make my number two.

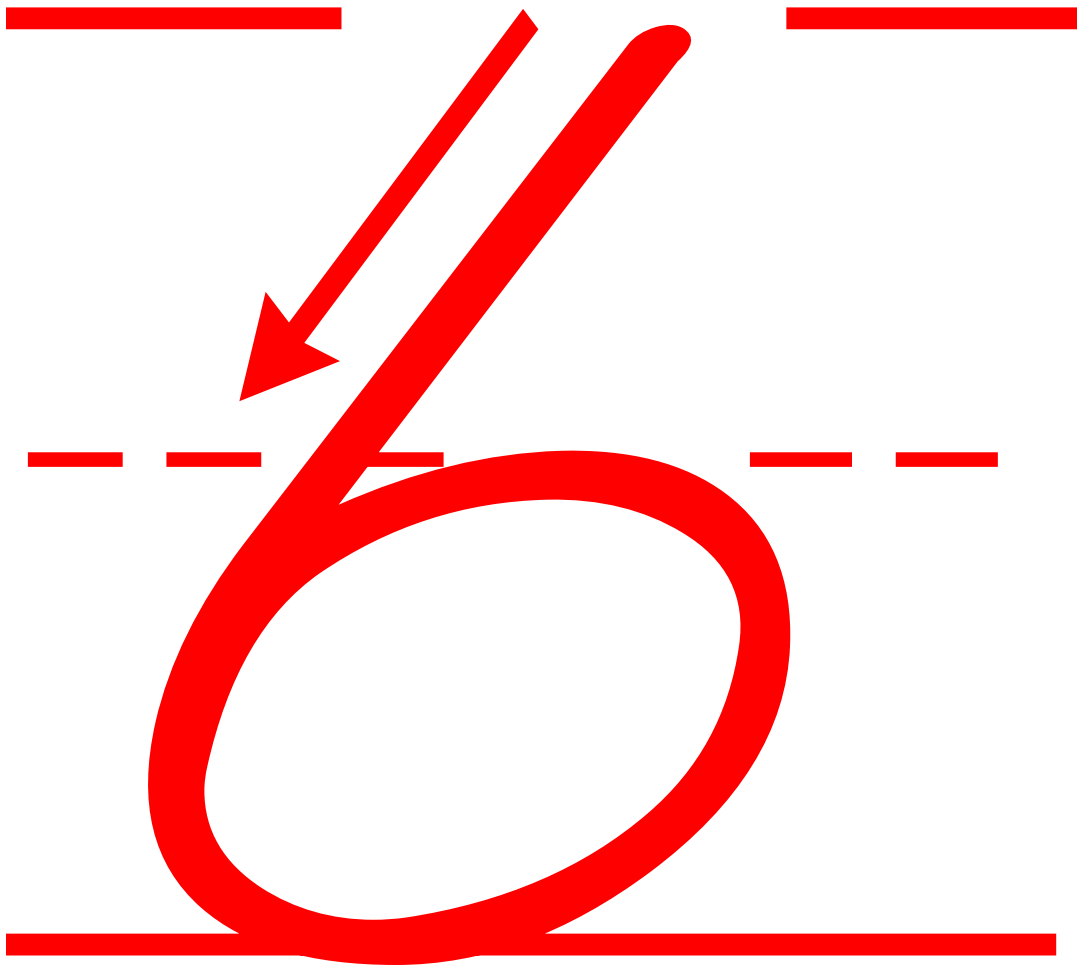

Around a tree, around a tree - that's
how a make my number three.

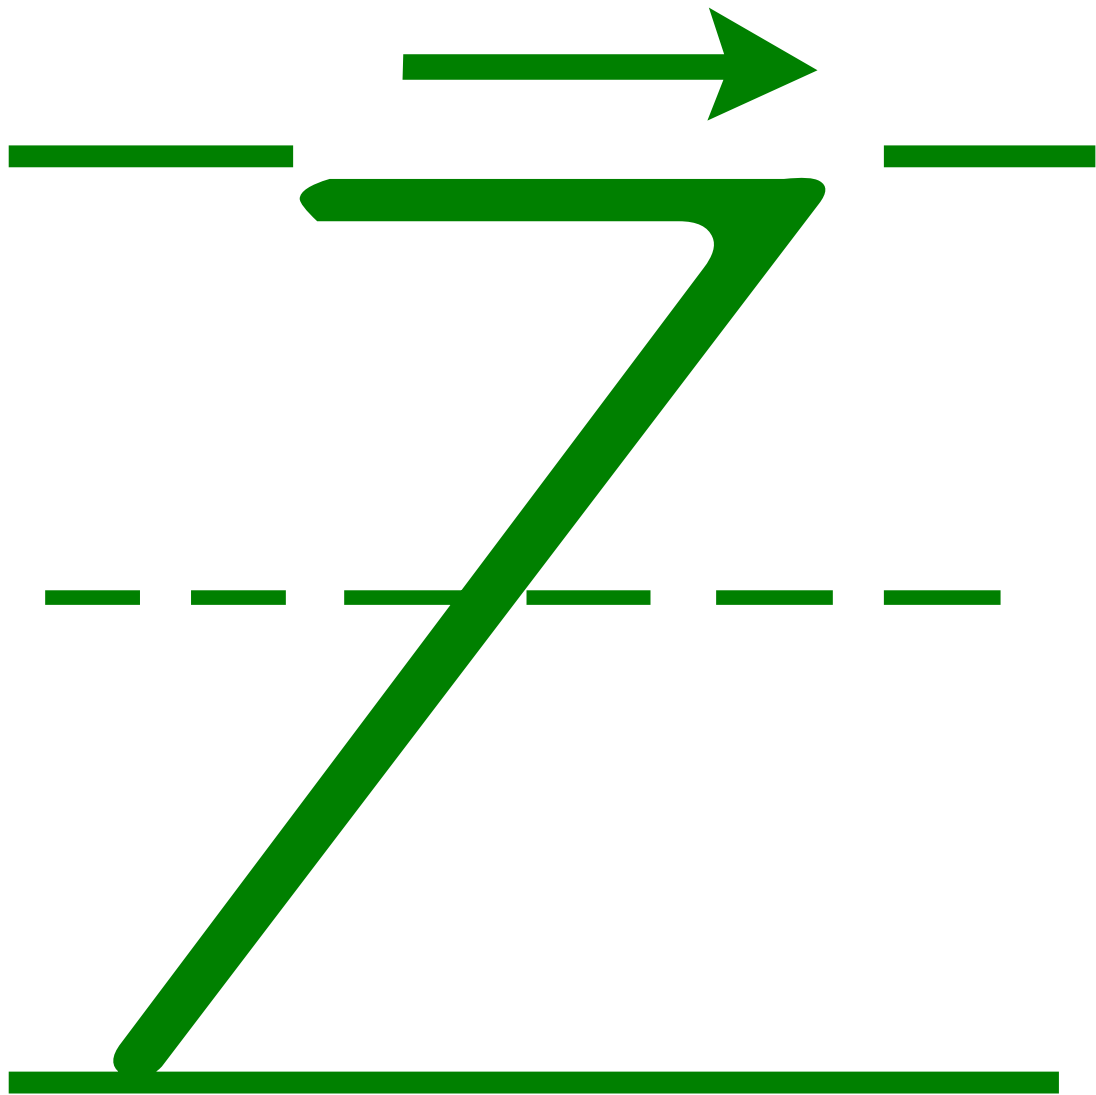

Down and over, down once more - that's
how I make my number four.

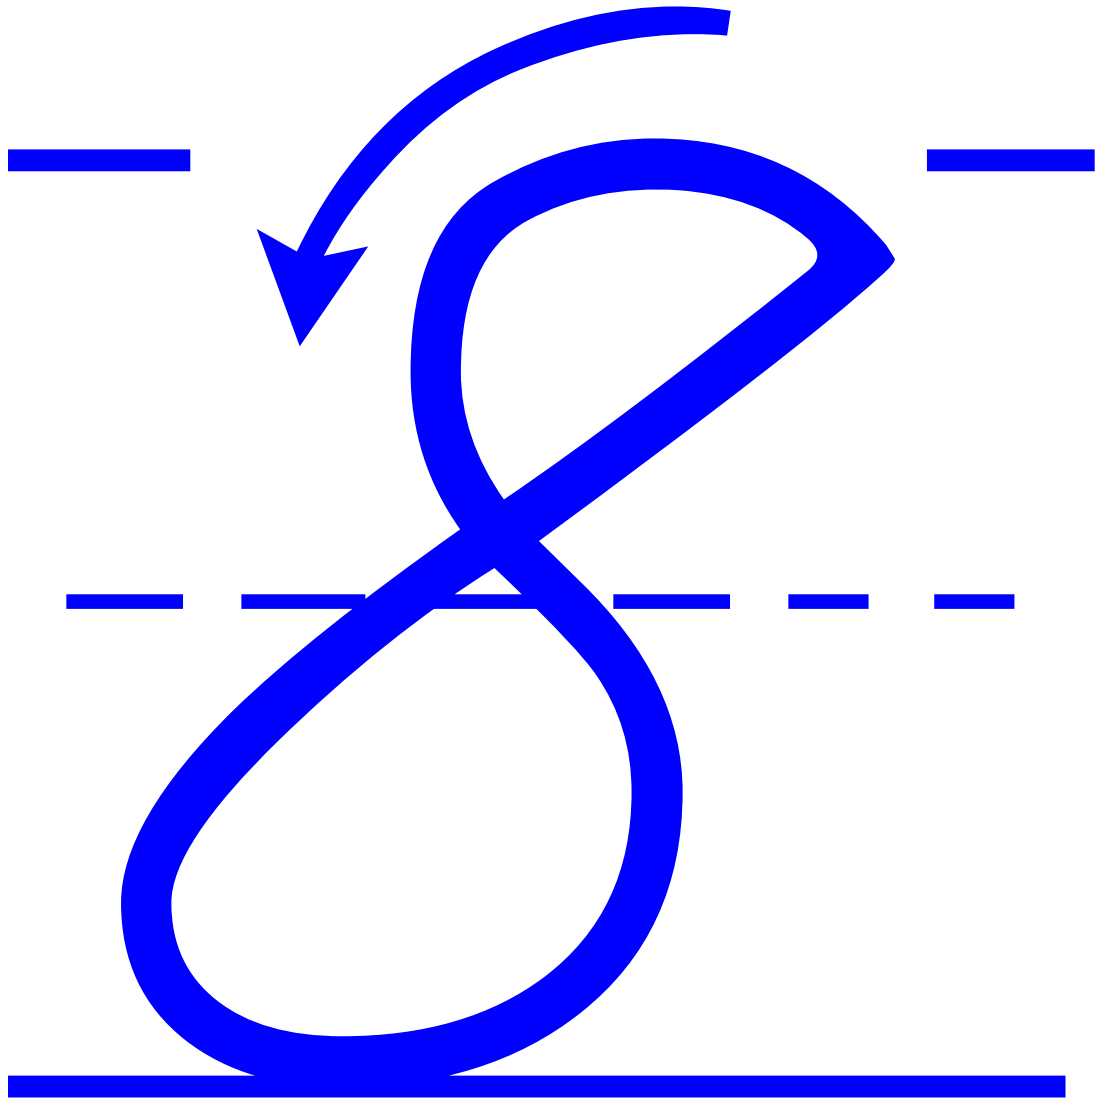

Straight line down, make a fat tummy. Put on his hat - doesn't my five look funny.

Down to the bottom and make a loop -
that's how I make my six turn into a hoop.

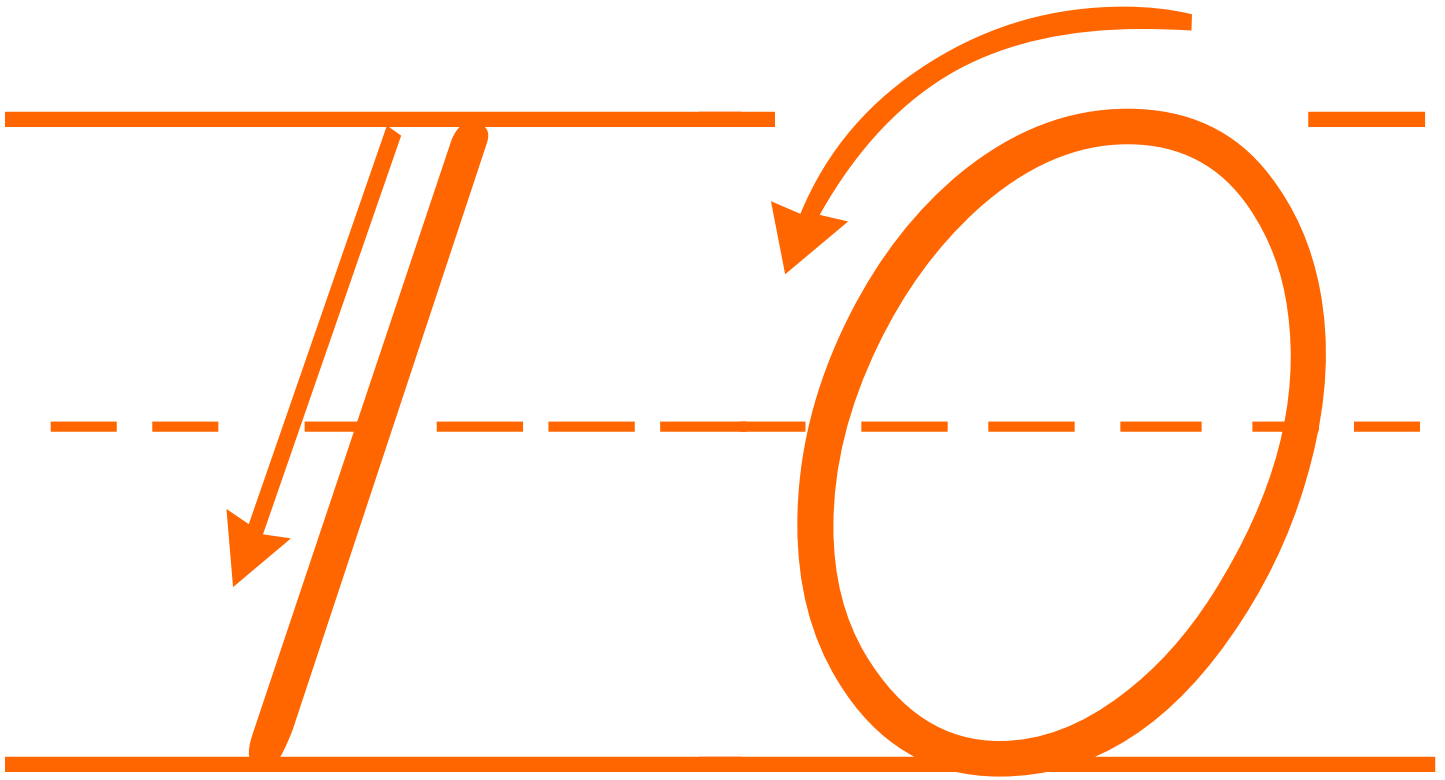

Across the sky and down from heaven -
that's how I make my number seven.

First I make an "S" but do not wait.
I climb back up to make my eight.

First I make a circle then down a line -
that's how I make my number nine.

First I make a line - that's easy to do.
Then I make an oval - see my ten? Now
I'm through.
